FABRICATION SHOP

Bludworth Marine, LLC. offers a full suite of fabrication capabilities for structural and piping systems in our 7000 square foot covered shop, located in Galveston, Texas. We are capable of producing components for the marine, industrial and commercial industry around the clock, seven days a week. At Bludworth Marine, we weld mild steel, HS steel, stainless steel, aluminum, CUNI, and other exotic metals. Our Galveston shop features:

- 10 Ton overhead trolley crane
- 1 Ton overhead trolley crane
- CNC water bed plasma/gas cutting table
- 400 Ton press brake
- 100 Ton Ironworker
- 48" vertical metal saw
- Pipe notcher
- Plasma cutter
- Drill presses
- Weld manipulators

Contact us today and let us take care of your fabrication needs!

For immediate assistance, please contact Bludworth Marine.
